Summary

M.Sc. Computer Science graduate (2026) from Pondicherry University with strong skills in software development, cloud computing, and AI-driven application development. Completed an AWS and DevOps course with practical exposure to cloud infrastructure, CI/CD workflows, containerization, and deployment automation. Experience in deploying a production-grade e-commerce platform using EC2, RDS, CloudFront, Auto Scaling, IAM, and Route 53. Skilled in Jenkins, Docker, Kubernetes, Terraform, Ansible, Prometheus, and Grafana. Looking to contribute as a fresher Cloud/DevOps Engineer in a growth-oriented organization.

Technical Skills

Cloud Platform (AWS):	EC2, Elastic Load Balancer (ELB), Auto Scaling, Route 53, S3, RDS, VPC, CloudWatch, Lambda, CloudFormation
DevOps & CI/CD:	Git, GitHub, Jenkins, Maven, Docker, Kubernetes, Terraform, Ansible, SonarQube, GitHub Actions, YAML
Infrastructure as Code:	Terraform, Ansible, CloudFormation
Monitoring & Logging:	Prometheus, Grafana, Splunk, CloudWatch
Operating Systems:	Ubuntu Linux, Windows, Linux CLI
Mobile & Web Development:	React Native, Node.js, Firebase, HTML, CSS, TypeScript
APIs & Databases:	REST APIs, MySQL, DynamoDB, Cloud Firestore
Design Tools:	Figma, Adobe XD, Photoshop

Core Competencies

Cloud Deployment — CI/CD Pipelines — Containerization
Linux Administration — Monitoring & Logging — Technical Troubleshooting

Projects

Mangola – Dynamic E-Commerce Website Deployment on AWS	Mar 2026
- Deployed a scalable e-commerce platform on AWS EC2 with Apache and PHP, achieving 99.9% uptime through Auto Scaling and Elastic Load Balancer configuration. - Built a high-availability database architecture using Amazon RDS (MySQL) with Read Replica and failover support, reducing query load by 30%. - Optimized performance using CloudFront, S3, Route 53, IAM, and ACM, reducing static asset delivery time by 60%.	
SUNTIME – Smart Sun Exposure & Vitamin D Tracking App	Jan 2026
- Developed a healthcare mobile app providing personalized sun exposure recommendations using skin classification and real-time UV data. - Integrated Open-Meteo API, GPS, and dermatology-based algorithms to calculate safe exposure duration with approximately 90% accuracy. - Built features including push notifications, Vitamin D tracking, and exposure scoring using React Native, Expo SDK, and Firebase.	

- Built a cross-platform tourism application using **React Native, Next.js, TypeScript, and Firebase** with real-time synchronization support.
- Implemented **AI itinerary generation using Groq API (LLaMA 3.3)**, reducing trip-planning time by approximately **70%**.
- Developed an **AI-powered chatbot** for real-time travel assistance, recommendations, and user interaction.

Real-Time Object Detection App

Apr 2024

- Developed an Android application using **TensorFlow Lite** for real-time object detection and mobile inference processing.
- Improved detection speed and responsiveness by approximately **40%** through model optimization for low-resource mobile devices.
- Designed an intuitive mobile interface with live camera integration to enhance usability and real-time performance.

Experience

IT Support Intern

Nov 2022

Integra Software Solutions, Puducherry

- Completed a 15-day internship in IT support and help desk operations, supporting system troubleshooting and software maintenance workflows.

UI/UX & Multimedia Design Intern

Jun 2023

Image Creative Education, Puducherry

- Contributed to UI/UX and multimedia workflows using Adobe XD, Premiere Pro, and After Effects.
- Assisted in designing and producing creative digital assets for client-facing projects.

Education

Pondicherry University, Puducherry

M.Sc. Computer Science (2024–2026)

CGPA: 7.53

Sri Manakula Vinayagar Engineering College, Puducherry

BCA (2021–2024)

CGPA: 7.90

Certifications

AWS & DevOps Training Program

Feb – May 2026

Completed hands-on training covering AWS Cloud, Docker, Jenkins, Kubernetes, Terraform, and CI/CD workflows.

NPTEL – The Joy of Computing Using Python

IIT Madras (Jul–Oct 2024)

Successfully completed a 12-week certification program.

NxtWave – AI and Data Science Workshop

Dec 2023

Participated in hands-on workshop covering AI fundamentals and data science concepts.

Train to Transform – Data Scientist Workshop

Aug 2025

Pondicherry University & Chanakya Educational Hub (USA & India)

Participated in career-focused mentorship and data science training sessions.

Languages

Tamil – Native Proficiency — English – Professional Proficiency
